

ALICE CERAMICA MAGAZINE
#6 2025

An abstract line drawing in white on a dark grey background. It depicts several ceramic vessels, including a tall, narrow vase on the left and a wider, shorter vessel on the right. The drawing uses simple outlines to define the shapes and curves of the pottery.

IDILLA

or (the eternal echo of clay)

La ceramica di Alice tra memoria e innovazione alla Milano Design Week 2025. Il cuore pulsante del Brera Design District, accoglie un'installazione immersiva che racconta la ceramica come materia viva, memoria ancestrale e continua trasformazione. IDILLA or (The Eternal Echo of Clay), ospitata nello showroom "alice c/o brera" in via Marsala 2, si configura come un viaggio sensoriale che esplora il valore della tradizione reinterpretata in chiave contemporanea.

L'allestimento, curato dallo Studio àr.o, celebra Idilla, la nuova collezione firmata da Manuel Di Giacobbe. Qui la ceramica non è solo un prodotto, ma un archivio di saperi e gesti antichi che risuonano nel presente. Il design diventa un ponte tra artigianato e industria, tra natura e innovazione tecnologica.

L'allestimento si sviluppa in un equilibrio tra elementi naturali e dispositivi tecnologici: schermi digitali, superfici tattili e materiali grezzi convivono per enfatizzare il dualismo tra uomo e macchina, tra tradizione e innovazione. La contrapposizione visiva e concettuale invita a riflettere sul rapporto tra mondo organico e digitale, suggerendo una visione del design che non è solo estetica, ma anche narrativa ed esperienziale.

Alice Ceramica: Between Memory and Innovation at Milan Design Week 2025. The beating heart of the Brera Design District hosts an immersive installation that presents ceramics as a living material—an ancestral memory in constant transformation. IDILLA or (The Eternal Echo of Clay), hosted at the "alice c/o brera" showroom on Via Marsala 2, offers a sensory journey exploring the value of tradition reinterpreted through a contemporary lens.

At the center is the new IDILLA collection, rich with innovations and striking elements, complemented by the company's most recent collections. This space is not just a showcase but a visual narrative that engages the visitor, celebrating the enthusiasm and innovation that define the Alice brand.

The installation, curated by Studio àr.o, celebrates Idilla, the new collection designed by Manuel Di Giacobbe.

Here, ceramics are not just a product but an archive of ancient knowledge and gestures that resonate in the present. Design becomes a bridge between craftsmanship and industry, between nature and technological innovation.

The installation unfolds in a balance between natural elements and technological devices: digital screens, tactile surfaces, and raw materials coexist to emphasize the duality between human and machine, tradition and innovation. This visual and conceptual contrast invites reflection on the relationship between the organic and digital worlds, suggesting a vision of design that is not just aesthetic but also narrative and experiential.

NEW COLLECTION 2025

Radicarsi significa appartenere, riconoscere la propria origine e trarne forza per generare qualcosa di autentico e duraturo. Perché solo ciò che è radicato nella verità della propria origine può davvero fiorire e toccare chi lo incontra.

Rooting oneself means belonging, acknowledging one's origin, and drawing strength from it to create something authentic and lasting. For only what is rooted in the truth of its origin can truly flourish and touch those who encounter it.

/bathtubs

SOLID SURFACE

La scelta di introdurre il solid surface nella nostra gamma non è stata casuale, ma il risultato di un'attenta ricerca volta a offrire materiali che combinano estetica e funzionalità. Questo materiale, con il suo caratteristico effetto soft touch, si distingue per una bellezza che richiama la pietra naturale levigata, aggiungendo un tocco di eleganza contemporanea agli ambienti bagno.

Il solid surface è composto da cariche minerali, principalmente triidratati di alluminio, legate a resine naturali **Biobased®**, ottenute da coltivazioni di mais provenienti da fonti controllate. Questo lo rende un materiale non solo performante, ma anche allineato con i valori di sostenibilità che guidano le nostre scelte.

Le sue proprietà intrinseche lo rendono straordinariamente versatile: è igienico, piacevole al tatto, resistente e facilmente lavorabile, consentendo la realizzazione di forme complesse e personalizzate. Le formulazioni esclusive di questo materiale, garantiscono prodotti che rispondono alle esigenze dei progettisti e degli utenti finali, offrendo un equilibrio perfetto tra innovazione tecnologica e raffinatezza estetica.

The decision to introduce solid surface into our range was not made lightly, but is the result of careful research aimed at offering materials that combine aesthetics and functionality. This material, with its characteristic soft-touch effect, stands out for its beauty reminiscent of polished natural stone, adding a touch of contemporary elegance to bathroom spaces.

Solid surface is composed of mineral fillers, primarily aluminum trihydrate, bonded with **Biobased®** natural resins derived from controlled corn cultivation. This makes it not only a high-performance material but also one aligned with the sustainability values that guide our choices.

Its intrinsic properties make it extraordinarily versatile: it is hygienic, pleasant to the touch, durable, and easily workable, allowing for the creation of complex and customized shapes. The exclusive formulations of this material ensure products that meet the needs of designers and end users, offering a perfect balance between technological innovation and aesthetic refinement.

SELMA

piatti doccia / shower trays

CAST MARBLE

Il cast marble è un materiale innovativo che unisce l'estetica della pietra naturale ai benefici della tecnologia moderna. Composto da dolomite, resine e PET riciclato, è una scelta sostenibile che garantisce qualità e prestazioni elevate.

Protetto da un rivestimento in gel coat, offre una superficie liscia, resistente e di facile manutenzione.

I piatti doccia in cast marble sono disponibili in due finiture: **Velour**, opaca e vellutata per un tocco sofisticato, e **Katai**, con una texture che richiama la pietra naturale.

Cast marble is an innovative material that combines the aesthetics of natural stone with the benefits of modern technology. Made from dolomite, resins, and recycled PET, it is a sustainable choice that ensures high quality and performance. Protected by a gel coat finish, it offers a smooth, durable, and easy-to-maintain surface.

Cast marble shower trays are available in two finishes: **Velour**, with a matte, velvety texture for a sophisticated touch, and **Katai**, featuring a texture that evokes the look of natural stone.

bilobo

design Manuel Di Giacobbe

Un tavolino/sgabello interamente in ceramica che nasce dall'unione di due cilindri che dolcemente si fondono l'uno con l'altro. BILOBO è disponibile in tutte le finiture della palette Alice.

A table/stool made entirely of ceramic, created by the fusion of two cylinders that gently merge into one another. BILOBO is available in all finishes from the Alice palette.

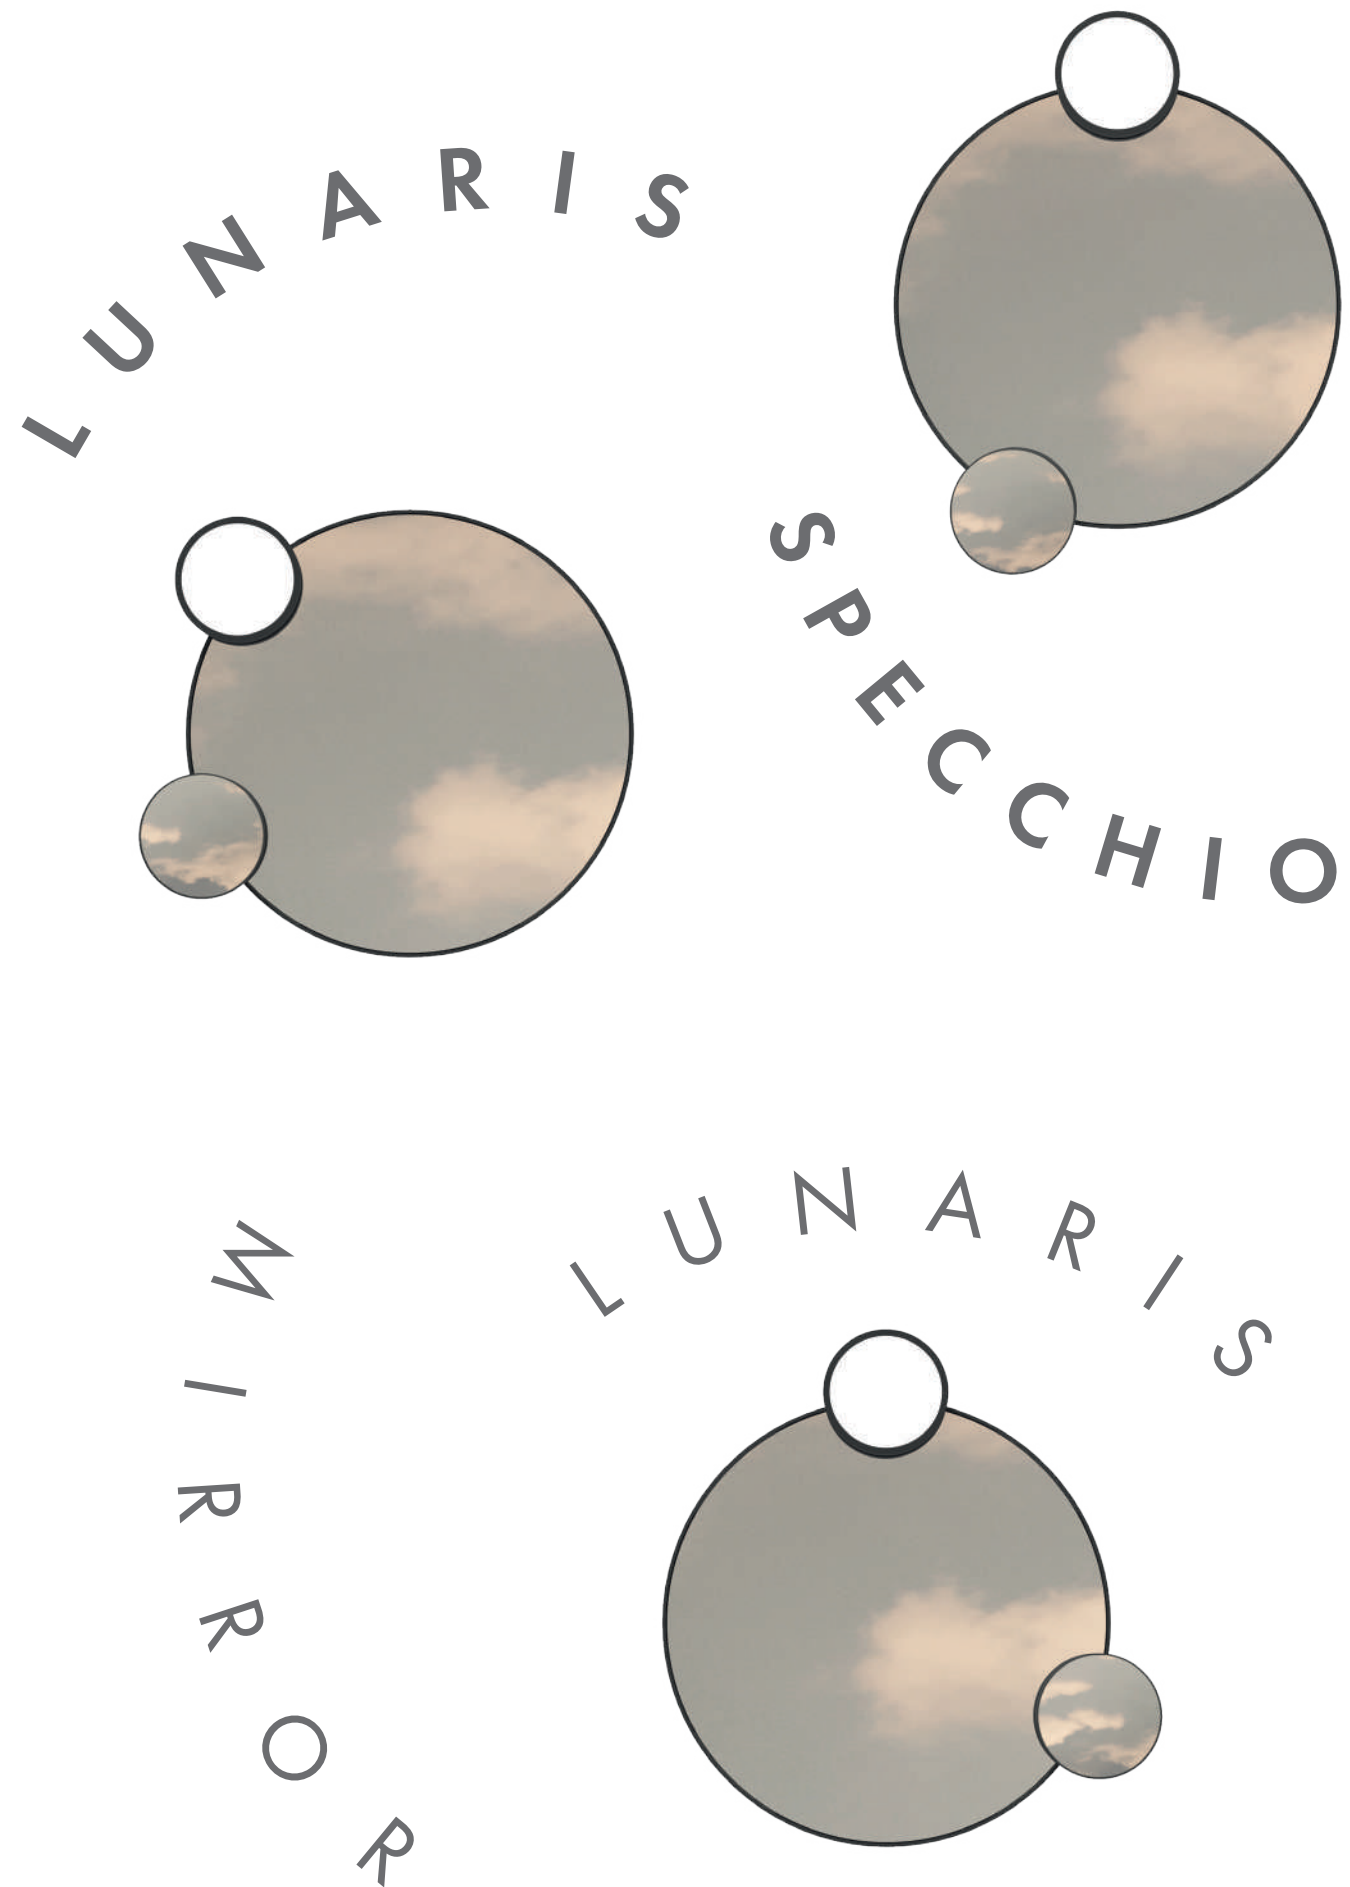

specchio idilla mirror

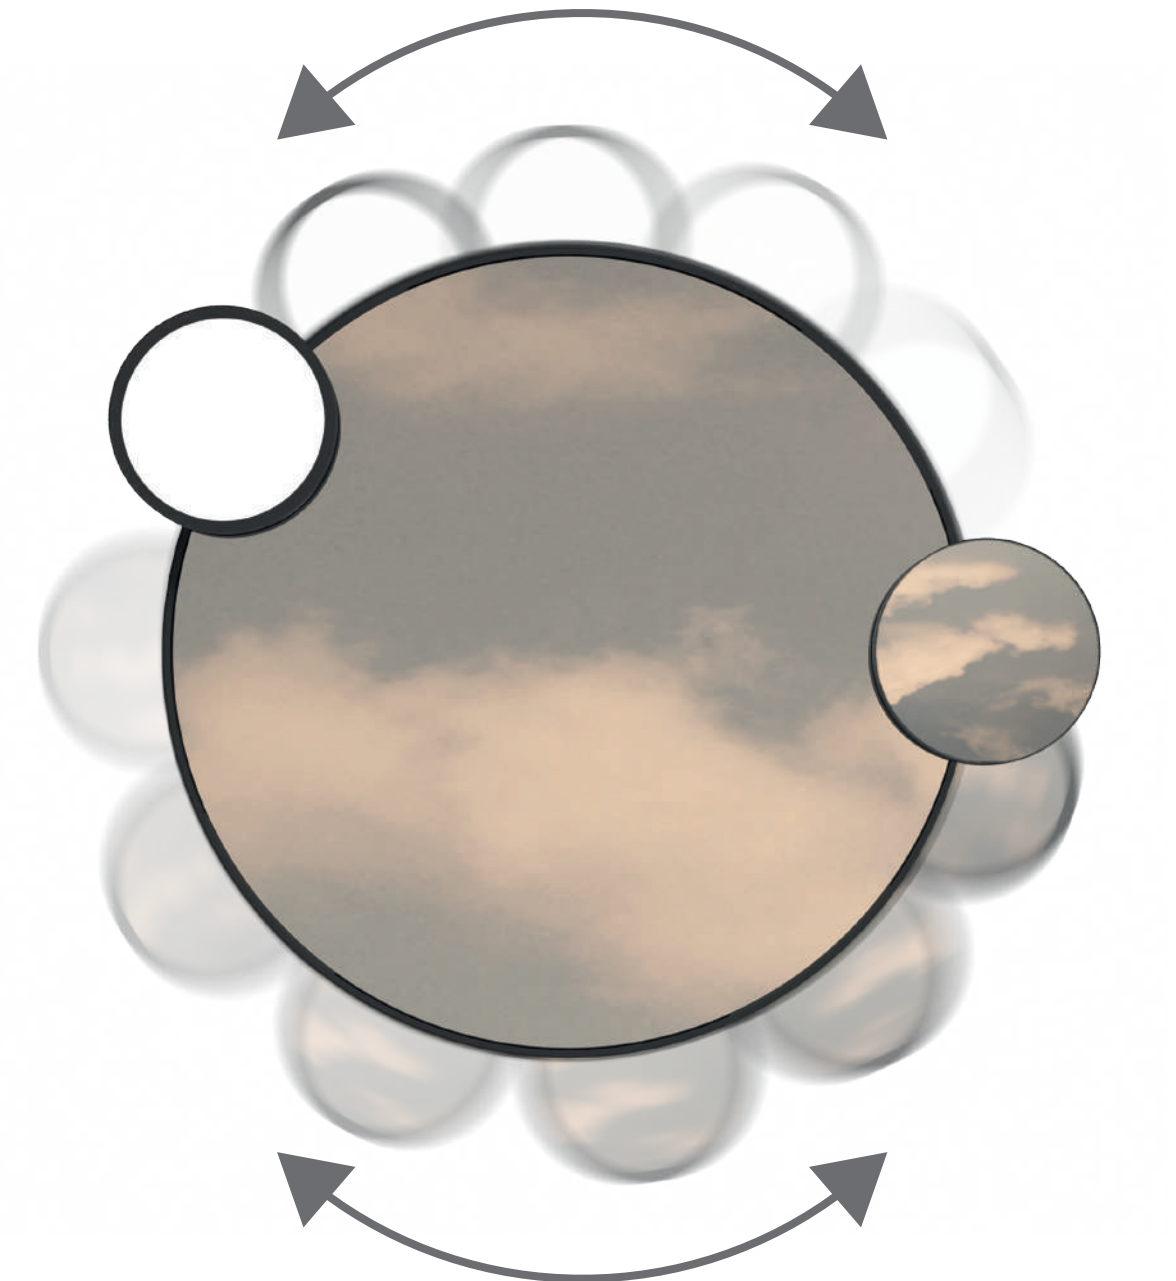

Specchio contenitore IDILLA in metallo verniciato a polvere nero, dotato di tre ripiani, chiusura soft-close dell'anta e una caratteristica maniglia in ceramica personalizzabile in tutte le finiture disponibili.

IDILLA storage mirror in black powder-coated metal, featuring three shelves, a soft-close door mechanism, and a distinctive ceramic handle customizable in all available finishes.

Lo specchio Lunar is ha un diametro di 70 cm ed è circondato da due satelliti che gli orbitano intorno con la possibilità di avvicinarsi tra loro: un satellite emana luce a led naturale 4000k, l'altro è uno specchio zoom. Disponibile nelle colorazioni nero matt e bianco matt.

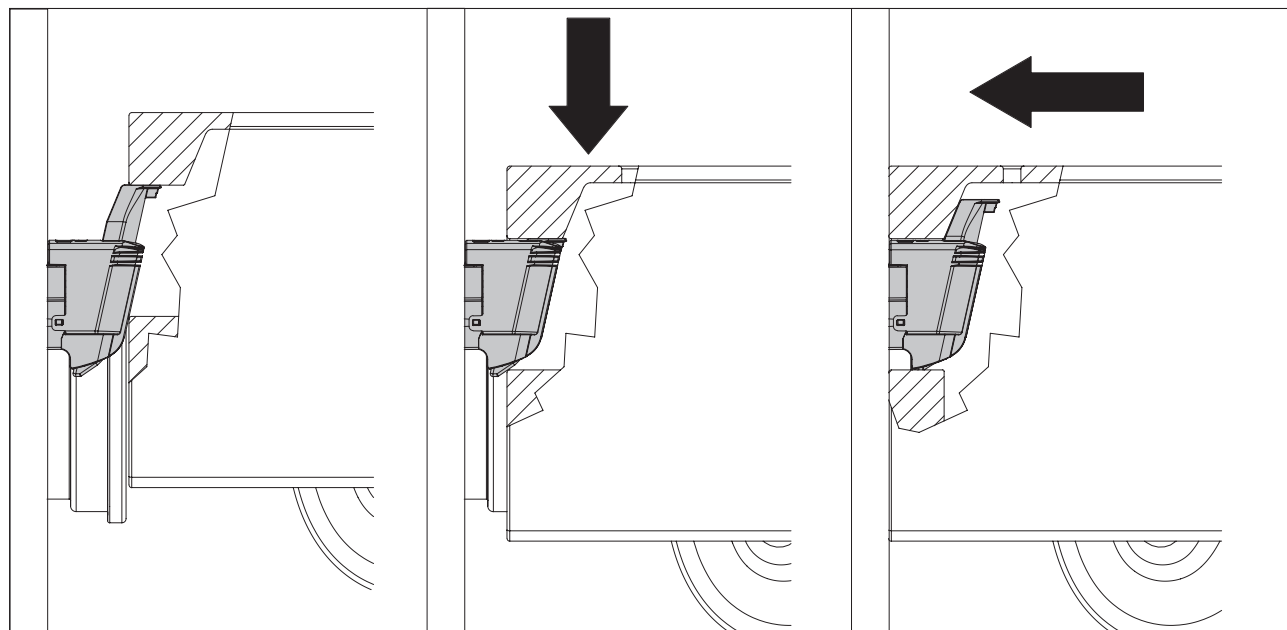

The Lunar is mirror has a diameter of 70 cm and is surrounded by two satellites that orbit around it with the possibility of approaching each other: one satellite emits natural 4000k LED light, while the other is a zoom mirror. Available in matt black and matt white matt colors.

in collaboration with

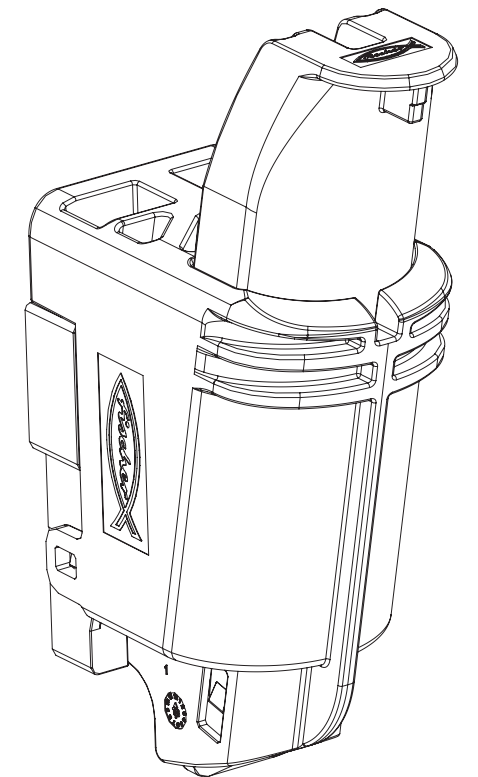

Fischer WB Klix è il sistema di fissaggi a parete all'avanguardia per i sanitari sospesi di Alice Ceramica. Grazie alla sua innovativa tecnologia, questo sistema offre eccezionale stabilità, sicurezza e facilità di installazione. Il sistema di fissaggio è progettato per fornire una sicurezza e una durata eccellenti.

I suoi componenti sono in grado di sostenere una grande quantità di peso senza subire piegamenti o deformazioni, garantendo un'installazione solida e affidabile per il nostro WC e bidet. In questo modo, il sistema di fissaggio è in grado di resistere all'uso intenso e di fornire una soluzione di montaggio a lunga durata.

La collaborazione con Fischer ci garantisce la migliore soluzione tecnica per i nostri prodotti. Per noi di Alice Ceramica, la qualità e l'affidabilità dei nostri prodotti sono fondamentali. Con Fischer WB Klix, la sicurezza e la facilità di installazione del tuo bagno saranno garantite al 100%.

WB Klix

Fischer WB Klix is the cutting-edge wall mounting system for Alice Ceramica's suspended sanitary fixtures.

Thanks to its innovative technology, this system offers exceptional stability, safety, and ease of installation.

The fixing system is designed to provide excellent security and durability. Its components are capable of supporting a large amount of weight without bending or deforming, ensuring a solid and reliable installation for our toilet and bidet.

In this way, the fixing system is able to withstand heavy use and provide a long-lasting mounting solution.

Our collaboration with Fischer ensures the best technical solution for our products. For Alice Ceramica, the quality and reliability of our products are paramount. With Fischer WB Klix, the safety and ease of installation for your bathroom will be guaranteed 100%.

ALIFLUSH+ è un sistema che crea un movimento circolare nell'acqua durante lo scarico.

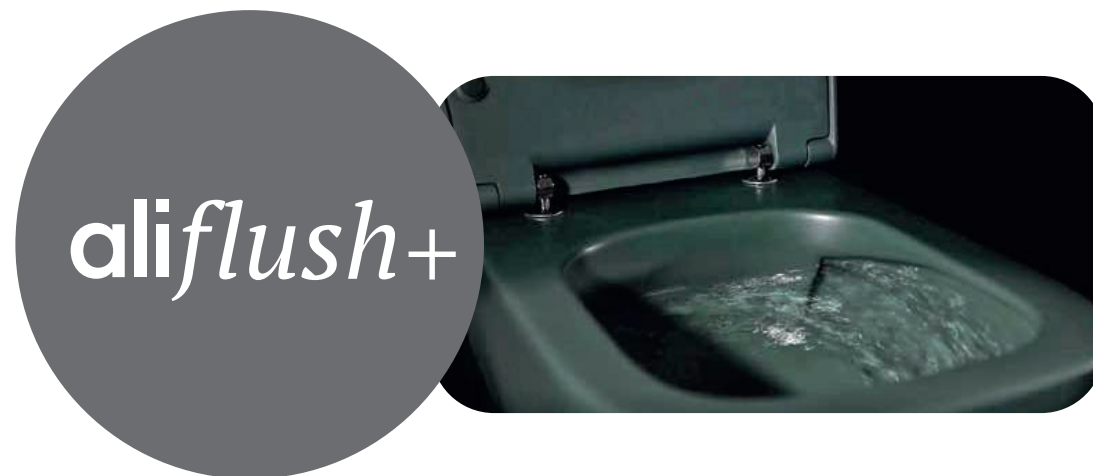

Questo movimento genera un potente vortice ed il risultato è uno scarico più efficace che rimuove i rifiuti rapidamente.

Oltre alle sue prestazioni, il sistema ALIFLUSH+ è anche progettato per essere più igienico rispetto ai sistemi tradizionali.

La sua azione circolare aiuta a pulire il bacino del water in modo più approfondito, riducendo la necessità di ulteriori pulizie.

Inoltre, il sistema ALIFLUSH+ è caratterizzato da un basso consumo di acqua. Questo significa che puoi risparmiare significativamente sulla bolletta dell'acqua nel tempo, contribuendo anche alla conservazione di questa preziosa risorsa naturale.

Grazie ad ALIFLUSH+, puoi avere prestazioni superiori, maggiore igiene e risparmio idrico: tutto in un unico prodotto.

ALIFLUSH+ is a system that creates a circular motion in the water during flushing. This motion generates a powerful vortex, resulting in a more effective flush that quickly removes waste.

In addition to its performance, the ALIFLUSH+ system is also designed to be more hygienic than traditional systems. Its circular action helps clean the toilet bowl more thoroughly, reducing the need for additional cleanings.

Furthermore, the ALIFLUSH+ system is characterized by low water consumption. This means you can significantly save on your water bill over time, while also contributing to the conservation of this precious natural resource.

With ALIFLUSH+, you can enjoy superior performance, increased hygiene, and water savings all in one product.

ALIGLAZE+ è il nostro smalto antibatterico che viene applicato su tutti i lavabi, WC e bidet per prevenire la crescita e la diffusione dei batteri sulla superficie. Grazie alla sua formulazione unica, questo smalto è in grado di eliminare fino al 99,9% dei batteri presenti sulla ceramica, garantendo che la superficie rimanga pulita e priva di germi.

La potente azione antibatterica di ALIGLAZE+ è attribuita alla presenza di agenti antimicrobici, tra cui ioni d'argento, titanio e zinco. Questi agenti lavorano insieme per impedire la crescita dei batteri.

Ma non è solo la sua efficacia antibatterica che rende ALIGLAZE+ così speciale. Questo smalto è anche progettato per resistere all'usura e all'abrasione, garantendo che rimanga efficace e duraturo nel tempo. In sintesi, ALIGLAZE+ è la soluzione ideale per mantenere le superfici dei bagni pulite, igienizzate e sicure per l'uso quotidiano.

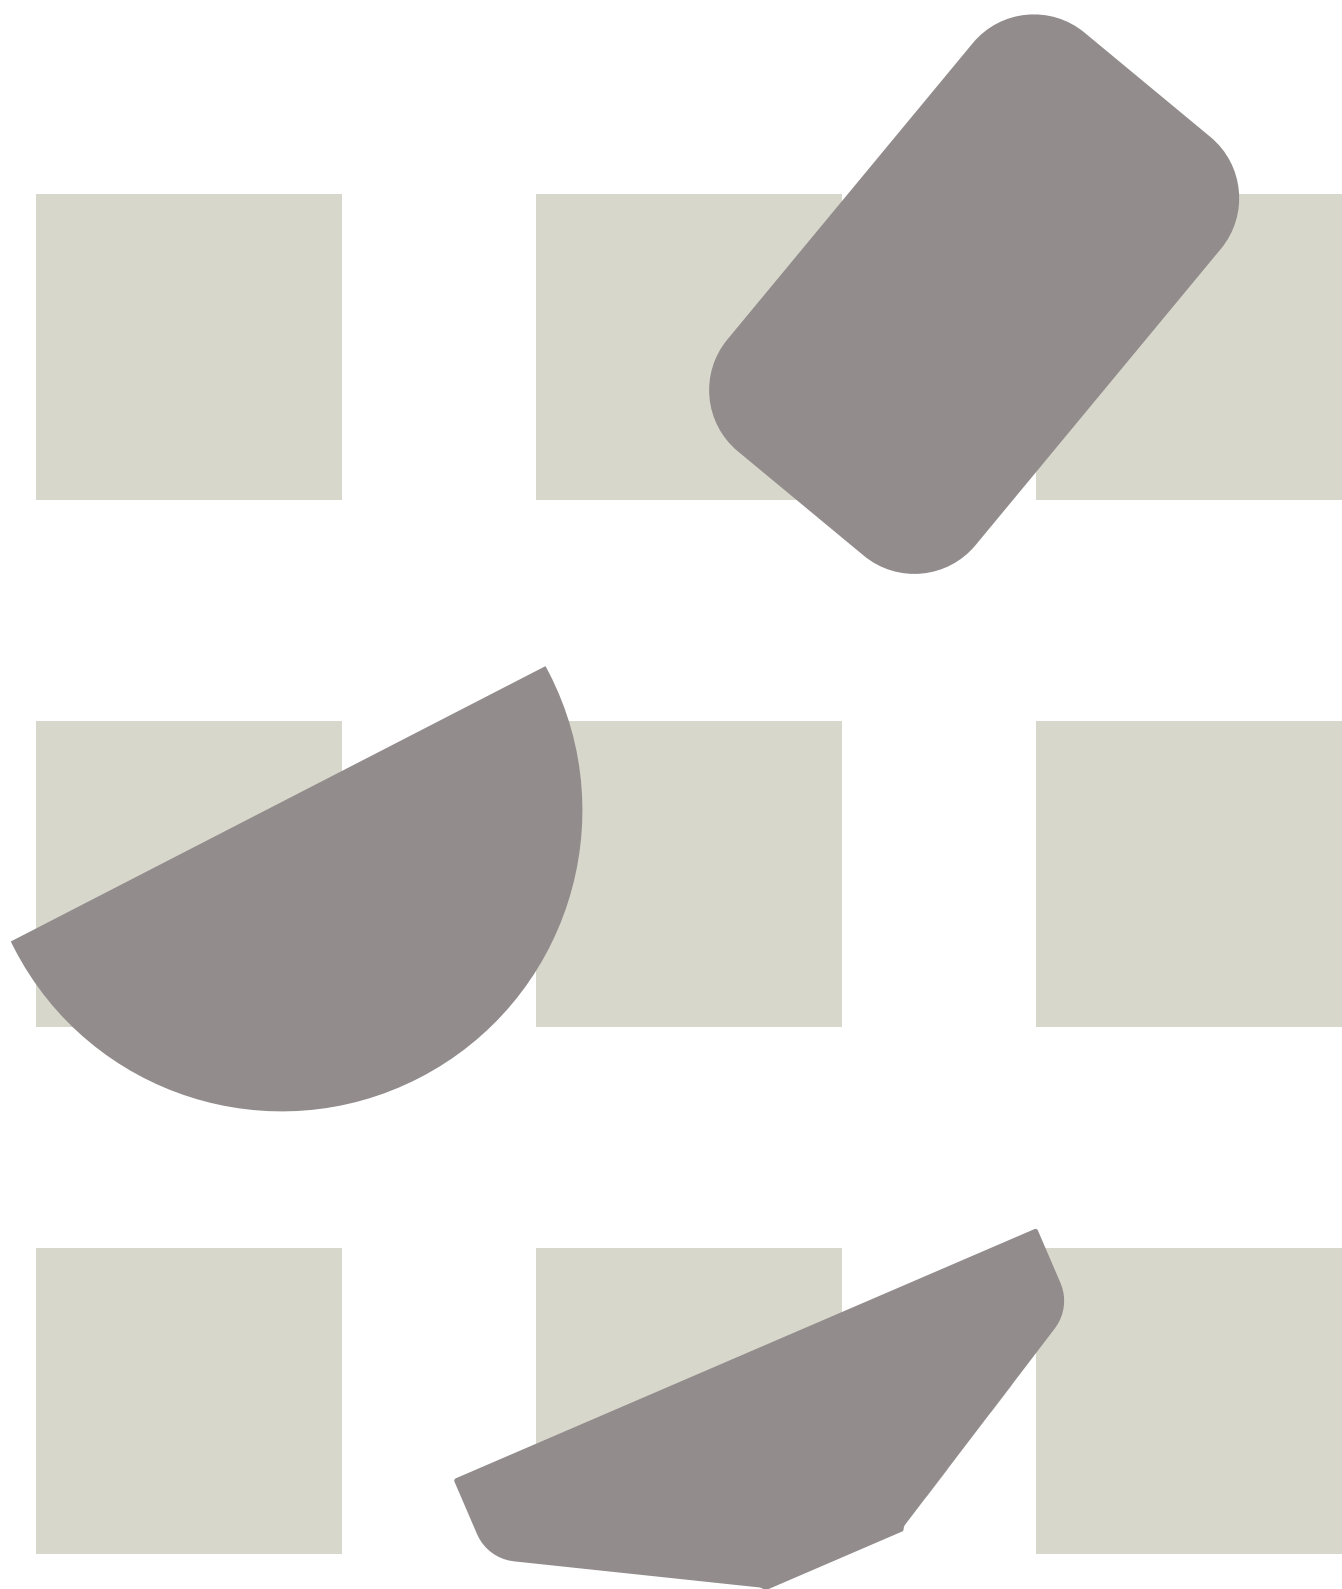

ALIGLAZE+ is our antibacterial glaze that is applied to all washbasins, toilets, and bidets to prevent the growth and spread of bacteria on the surface. Thanks to its unique formulation, this glaze is capable of eliminating up to 99.9% of bacteria present on the ceramic, ensuring that the surface remains clean and germ-free.

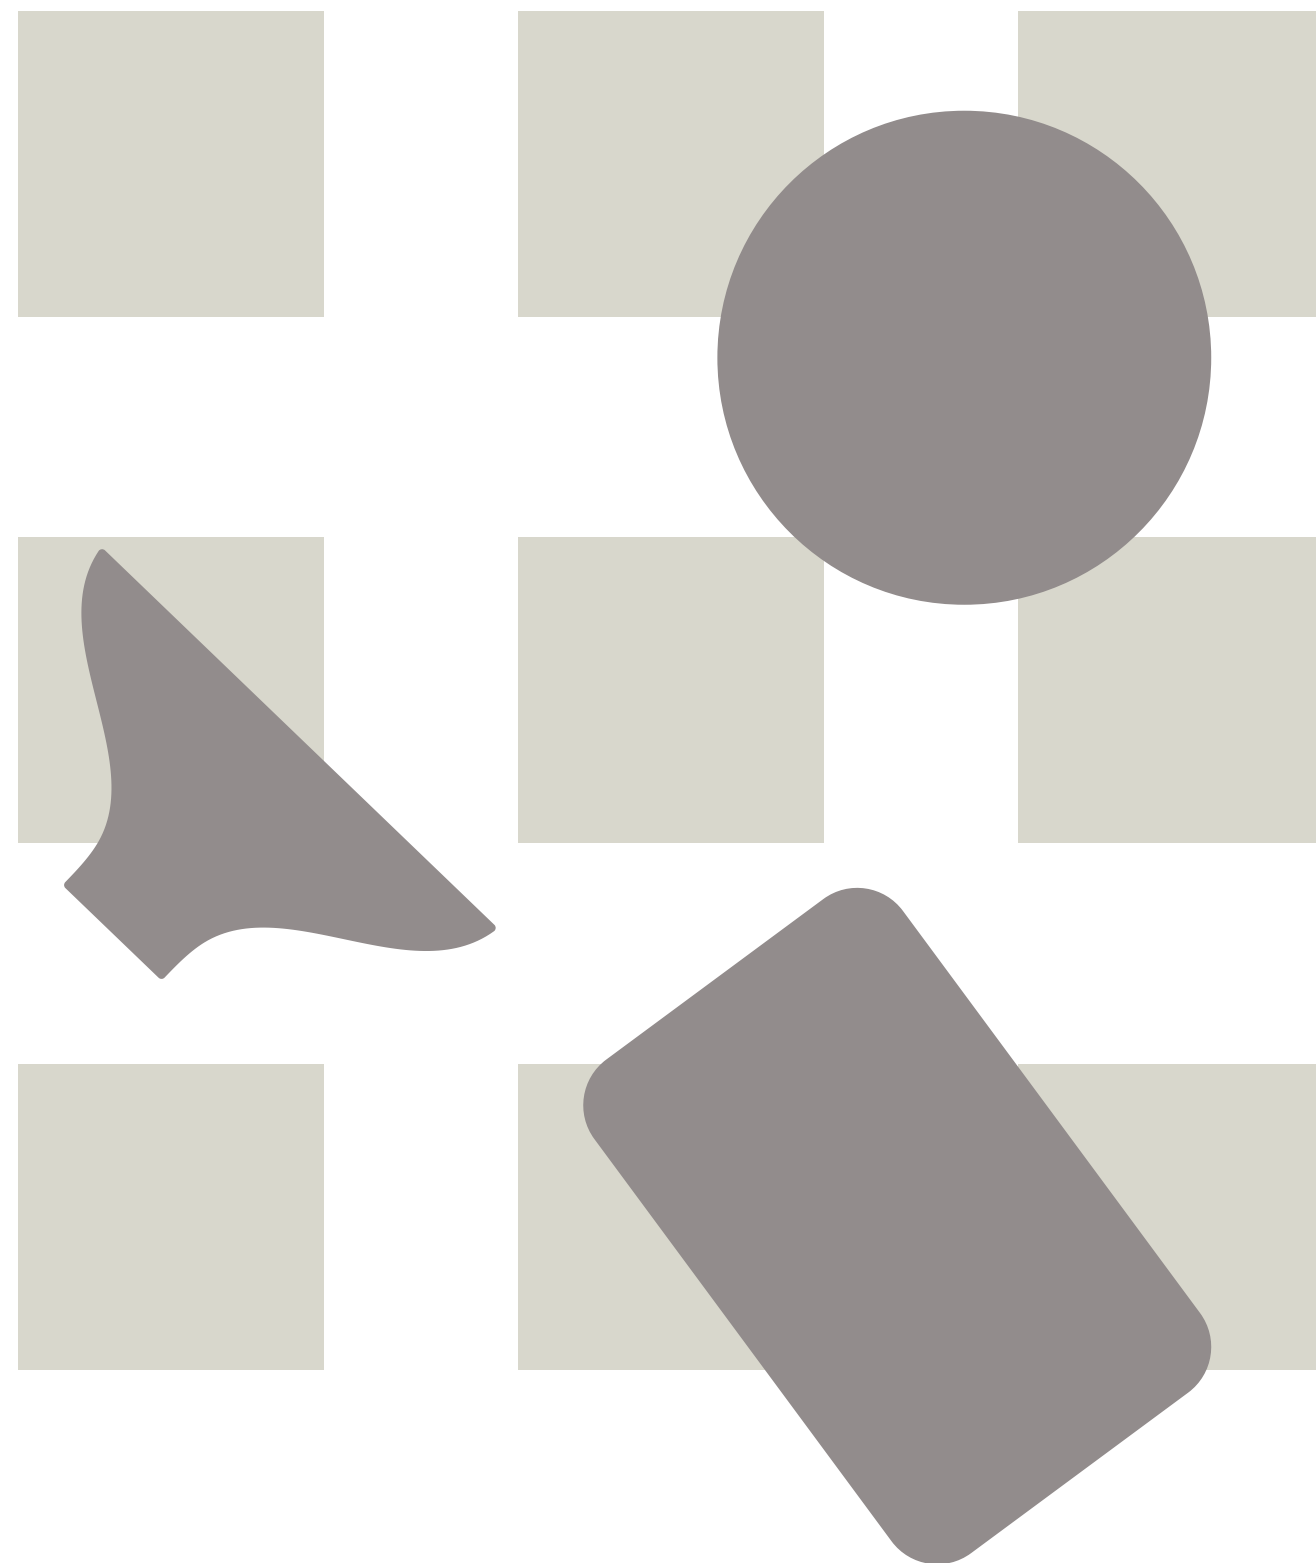

The powerful antibacterial action of ALIGLAZE+ is attributed to the presence of antimicrobial agents, including silver ions, titanium, and zinc. These agents work together to inhibit bacterial growth.

But it's not just its antibacterial effectiveness that makes ALIGLAZE+ so special. This glaze is also designed to withstand wear and abrasion, ensuring that it remains effective and long-lasting over time. In summary, ALIGLAZE+ is the ideal solution to keep bathroom surfaces clean, sanitized, and safe for daily use.
